Re: Deer Track Circle Water Service Disruption Notification

Dear Customer;

Please know that water system improvements being coordinated by Lancaster County Public Works, Cherokee Inc. (contractor), and Lancaster County Water & Sewer District (LCWSD) will require the water to be temporarily turned off along Deer Track Circle, in the culvert construction area.

On **Monday March 9th** the contractor, under LCWSD's supervision, will be making changes to the existing watermain for the Deer Tract Road Culvert project. The water service to your property is planned to be disrupted between 9:00 am and 4:00 pm on the date mentioned above. We apologize for the inconvenience; however, LCWSD will ensure water is restored as quickly as possible, following the valve installation. The disruption of water service could be minimum but plan for the entire day and hopefully the disruption will be for only one hour.

If you have any questions during, or about the temporary outage, please contact LCWSD's Construction Inspector, Matthew Whitley at (803) 577-9252. Postings of the outage and updates will also be made available on LCWSD's website (www.lcwasd.org).

Thank you in advance for your understanding.

Sincerely,

A handwritten signature in blue ink that reads "Timothy R. Kiser". The signature is written in a cursive, flowing style.
